

iPad Configuration

Initial Set-up

1. Turn on iPad and go through the initial set-up steps, using “Set Up Manually.” When prompted, select “Restore from iCloud backup”
2. Enter the Apple ID and password provided by the EDI Institute
3. Choose latest backup
4. Perform any iOS updates as needed (“Settings” is found in the “Extras” folder)
5. Go to “General” settings and “Name”. Change the device name to the next sequential number, such as [Your Organization] XXX. We recommend putting stickers on the back of your iPads to match the device name on each iPad.

Download the MyMoments app

1. Download “MyMoments.org” from the App Store
2. Open the MyMoments App and enter access code provided by the EDI Institute
3. Click “Load Image” and give app access to Camera Roll
4. Move “Extras” folder to second screen
